

Attestation Emission Class E1

Reg.-No. Z342-4/16

Hereby the Official Institution for Materials Testing MPA Bremen confirms

to the Manufacturer at the factory

**LLC «SVEZA Uralskiy»
Moskovskaya str. 1a
Uralskiy
Nytvenskiy district
Perm region
Russia
617005**

that the independent contractual surveillance concerning the formaldehyde release of the

Birch Plywood, Type FSF

is being exercised by means of continuous supervision over the factory production control and determination of formaldehyde release of random samples according to the Guidelines 100, 1994, of the German Institute of Construction Technologies. The requirements of the German Chemicals Ban Regulations in force – ChemVerbotsV – Supplement to § 1, art. 3 – are so far fulfilled.

The described product fulfills the requirements of the emission class E1.

This attestation is valid till the next continuous surveillance inspection of the factory production control or till June 30, 2017.

Bremen, 09th of December 2016

(Dipl.-Ing. Axel Meyer,
Chief of authorised Certification Body of MPA Bremen)

The validity of the certificate is confirmed by the publication on the official website of the MPA Bremen: <http://www.mpa-bremen.de>.
