Hereby the Official Institution for Materials Testing MPA Bremen confirms

to the Manufacturer at the factory

**JSC «SVEZA Verhnaya Sinyachiha»
Kedrovaya str. 1
Verhnaya Sinyachiha
Alapaevskiy district
Sverdlovsk region
Russia
624691**

that the independent contractual surveillance concerning the formaldehyde release of the

Birch Plywood, Type FK

is being exercised by means of continuous supervision over the factory production control and determination of formaldehyde release of random samples according to the Guidelines 100, 1994, of the German Institute of Construction Technologies. The requirements of the German Chemicals Ban Regulations in force – ChemVerbotsV – Supplement to § 1, art. 3 – are so far fulfilled.

The described product fulfills the requirements of the emission class E1.

This attestation is valid till the next continuous surveillance inspection of the factory production control or till December 31, 2017.

Bremen, 29th of June 2017

(Dipl.-Ing. Axel Wehler)
Chief of authorised Certification Body of MPA Bremen)

The validity of the certificate is confirmed by the publication on the official website of the MPA Bremen: <http://www.mpa-bremen.de>.
