

Attestation Emission Class E1

Reg.-No. Z291-2/17

Hereby the Official Institution for Materials Testing MPA Bremen confirms

to the Manufacturer at the factory

JSC «SVEZA Ust-Izhora»

Fanernaya str. 5

Pontonnyi

Kolpinskiy district

St. Petersburg

Russia

196643

that the independent contractual surveillance concerning the formaldehyde release of the

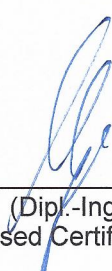

Birch Plywood, Type FSF

is being exercised by means of continuous supervision over the factory production control and determination of formaldehyde release of random samples according to the Guidelines 100, 1994, of the German Institute of Construction Technologies. The requirements of the German Chemicals Ban Regulations in force – ChemVerbotsV – Supplement to § 1, art. 3 – are so far fulfilled.

The described product fulfills the requirements of the emission class E1.

This attestation is valid till the next continuous surveillance inspection of the factory production control or till December 31, 2017.

Bremen, 29th of June 2017

(Dipl.-Ing. Axel Meyer,
Chief of authorised Certification Body of MPA Bremen)
